

POWER PLATFORM WORKSHOPS *APP IN A DAY (AIAD)*

The workshop provides an overview of **Microsoft Power Apps** and Power Automate, including an assessment of your environment and a proof-of-concept.

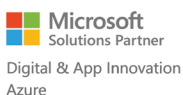

The workshop is mainly aimed at key users or people from the **business departments** and will take place on-site or remotely.

The objective of this workshop is the introduction of power automate, as well as the acquisition of a first **practical experience** in the creation of applications and **workflows**.

By the end of the workshop, participants will be able to **create basic applications** with Power Apps, **automate simple processes** with Power Automate, and apply them to day-to-day business challenges.

CONTENTS :

- Introduction to Power Apps
- Power Apps Lab
- Introduction to Power Automate
